

September 1.st, 2013 Macau, China

To Whom It May Concern,

Carolina was a Senior Designer at FRC Design from June 2012 through September 2013. Her responsibilities included, among others, art and design creations, working both on interactive and print products. In addition, Carolina served as an engine of motivation, inspiring her co-workers to reach new levels in their work.

While at FRC Design Manager i had the pleasure to work with Carolina on many occasions, and she was always my number one choice team member as we shared a drive for graphical perfection. Together, we were responsible for delivering solutions to clients, that would bring FRC Design prestige.

Carolina is a top of the line artist in the graphic design field. She proved her competency on a daily basis to the team, particularly in the development of several projects. She is a professional who is constantly seeking her concerning issues such as optmization, functionality, user friendliness and how general graphic design should be approached.

I am glad to have had the opportunity to work together with such a talented designer and I strongly recommend her to any employer.

Sincerely,

Carlos Canhita  
Design Manager
